

# AGR Technology expands blog with new business & technology resources

 [influencing.com/pr/119318/agr-technology-expands-blog-with-new-business-technology-resources](https://influencing.com/pr/119318/agr-technology-expands-blog-with-new-business-technology-resources)

Since its founding in 2013 as a technology focused YouTube channel and later blog by [Alessio Rigoli](#) residing in Shepparton.

From this time [AGR Technology](#) has transformed into a multi-faceted services provider helping businesses with a variety of different services such as:

- Website Design & Hosting
- Digital Marketing (Search & Paid Advertising)
- Business Software Development
- Domain Names
- Managed IT & Consulting
- Sourcing & Importing
- Cyber security

As part of growing plans to produce more content and expand the reach of the business AGR Technology launched new categories on the blog portion of the website to reflect growing demand for new topics and areas of emerging technologies.

These new categories are:

**SEO:** This category focuses on Search Engine Optimisation or SEO for short and some of the different industries and platforms it can be applied to including other general best practices, guides and news.
